ADDITIONAL INFORMATION

The Super Heavy Duty Advanced Q8 Quasar all aluminum frame forms the platform of the most technologically advanced and innovative instant frame in the world. Based on advance tetrahedral geometry the advanced Q8 Quasar offers the cutting edge in design and functionality. The unique profile offers superior strength over many other conventional geometries at a reduced weight. The four groove channel provides a new streamline method to attach slide in keder walls, half wall bars, aluminum partitions and other professional exhibitor accessories. The advanced V-edge truss bars and moulded cast aluminum connectors offer superior strength and unique functionality. The new Super Heavy Duty Q8 Quasar is the most futuristic, functional all aluminum frame on the world market to date.
